BIRD FEEDERS IN COLLEGE CAMPUS

M. S. P. Mandal's Shivchhatrapati College, Aurangabad takes initiatives in the environmental sustenance and caring of living species including birds. The activity is conducted by the staff and students of the college, mainly NSS for safety and protection of birds, especially in summer season. In summer season temperature normally rises beyond 40° C where birds in the nearby regions wonder in search of water and food grains. Different places including garden, roof tops, various departments are provided with the water pots and food grain pots. The activity is an initiative and endeavour of the institution for the environmental protection.
