## **E-WASTE MANAGEMENT**

e-waste”, “electronic waste”, “e-scrap” and the “end-of-life electronics” are the terms usually used to describe the used electronics that are nearing the end of their usefulness life and are discarded, donated or given to recycling. Solving the E-waste Problem is a multi-stakeholder initiative and a global platform addressing the e-waste problem.

M. S. P. Mandal’s Shivchhatrapati College, Aurangabad works for a minimum generation of e-waste by reusing it.

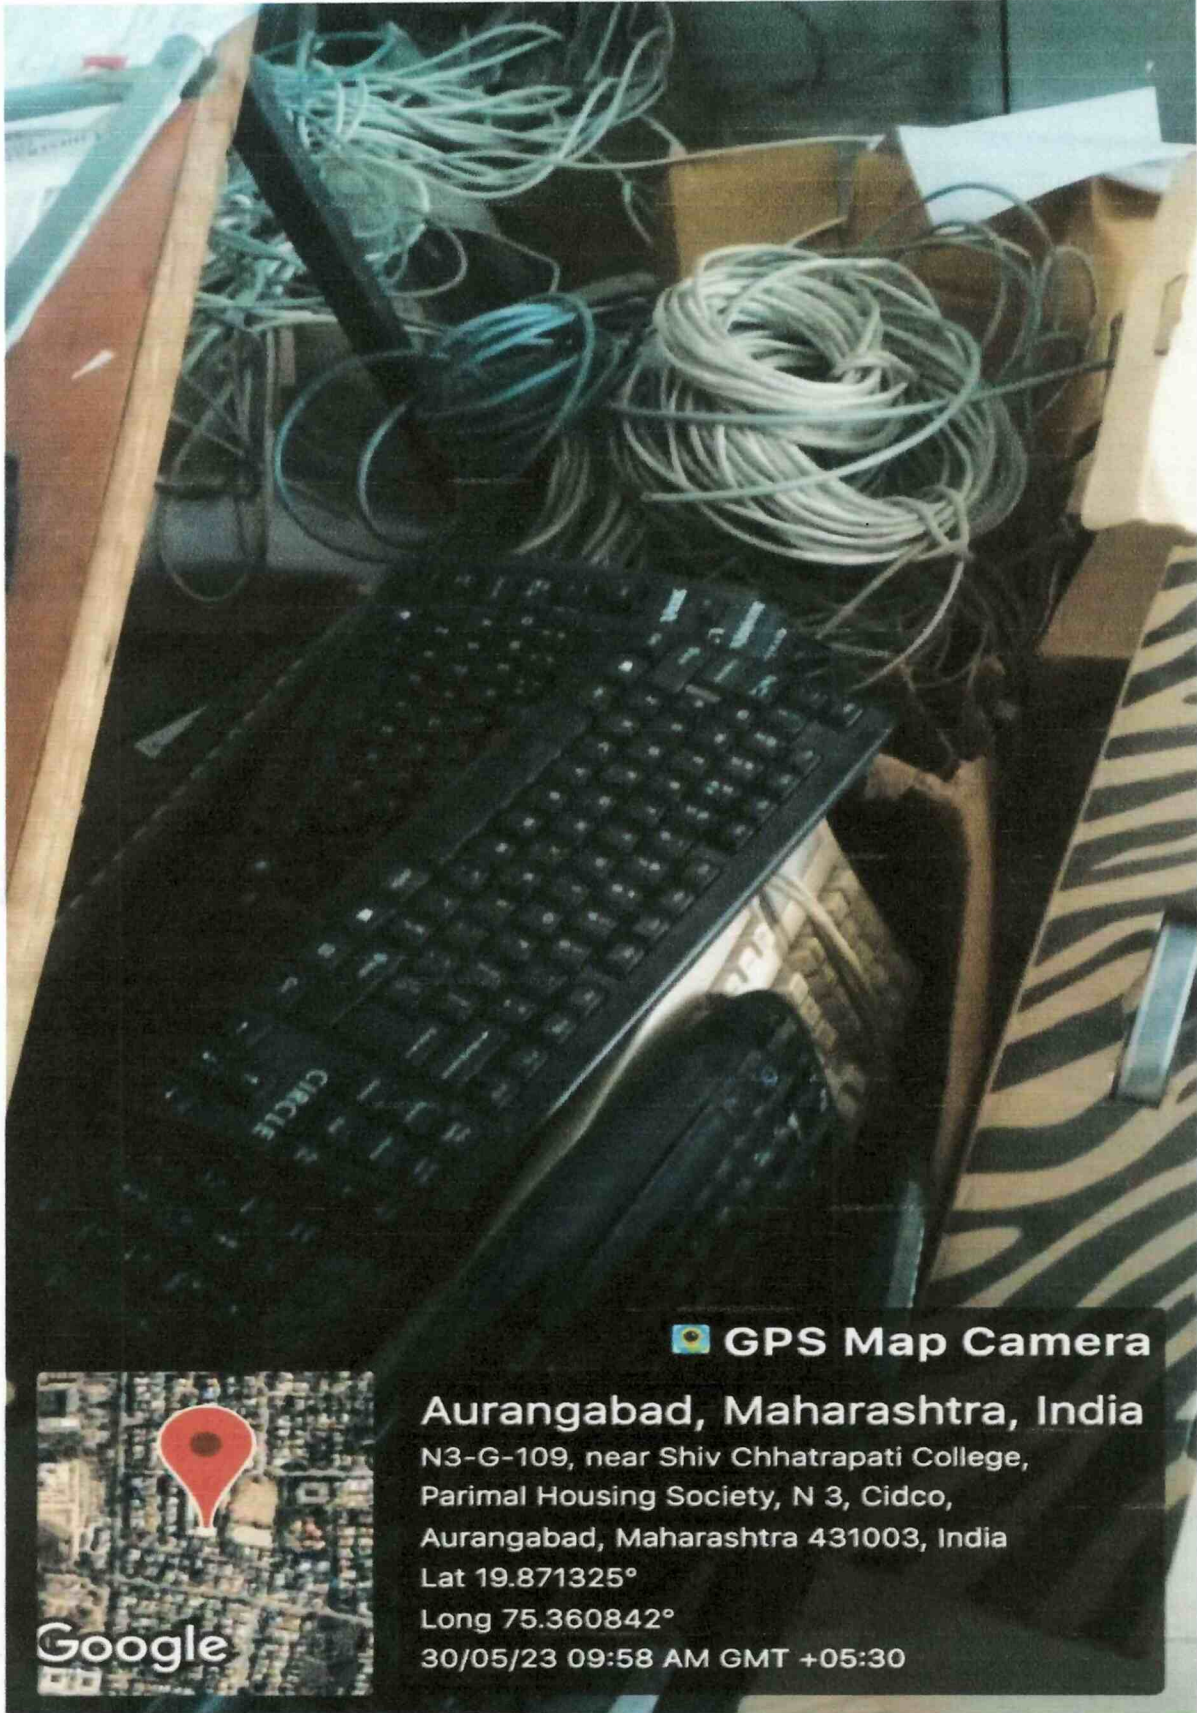

The life of computers, equipment and electronic devices is ensured through repairs and maintenance.

e-Waste generated in the college campus is collected in the Department of computer Science which is subjected for reuse if possible.

The e-waste containing Mother boards, SMPS, keyboards, mouse and other electronic devices are collected separately and delivered for safe disposal.
