Aurangabad**

## ENVIRONMENT AND ENERGY POLICY

- The institution is dedicated for applying, preserving, and continually improving environmental management and save energy practices.
- The institution is grateful to protect the environment through the prevention of pollution and waste, and through the sustainable development, and maintenance and improvement of the natural and environment.
- The institute is committed to use sustainable resources and minimize the use of hazardous substances which create pollution and thus saving energy.
- Institution is trying to create its policies with great measures taken to protect and improve biodiversity of the institutional campus.
- The college formulates its policies obeying with all relevant environmental legislation, standards, agreements, policies, and procedures decided by the central and state governments.
- Institute is committed to follow practical steps in developing and implementing research and teaching initiatives related to sustainability.
- The institute is trying to design program to stand-in the quality of the environment and protection of the biodiversity throughout the region
- The campus of institute must be made plastic free to a possible extent.
- Abiding by the principle of green protocol and energy saving measures, the institution insists on the use of cloth items replacing plastic made one.
